Skills

Results-driven Full Stack Developer with 3+ years of experience in designing, developing, and deploying scalable web applications using modern technologies including React, Angular, Next.js, Node.js, NestJS, PostgreSQL, MySQL, and MongoDB. Adept at building responsive, user-centric solutions and optimizing system performance. Recognized for being a fast learner, problem solver, and proactive collaborator, with a strong focus on delivering business value through clean, efficient, and maintainable code. Seeking opportunities to leverage my expertise to drive innovation and contribute to organizational success
